

Thank you for entrusting us with your child's care. It is our first priority to help your child reach their potential.

We commit to create goals and interventions to help your child succeed. We commit to train you, your family and all providers on how to run goals properly and effectively. The services are a combination of direct care, supervision, and parent training. This model and your consistent participation allow us to best serve your child's needs.

In order to maintain consistency and an appropriate level of care to reach your goals, we require a minimum of 10 hours per week of direct care provided by the behavior technician. If a session is cancelled, please reschedule it. We also work to ensure weekly parent training sessions to create a collaborative environment and sustainable interventions.
